AW DECLARATION CONCERNING REACH

REACH is an European regulation which entered into force in June 2007 .The regulation covers registration, evaluation, authorisation and restriction processes for chemicals substances to ensure the consistency of regulations across EU. These REACH processes are designed to provide additional information on chemicals, to ensure their safe use and to ensure competitiveness of the European industry.

ArjoWiggins is satisfied that the paper supplied to our customers complies with the REACH regulation , and does not require registration procedures.

As a user of chemical products, Arjowiggins will take all steps necessary to ensure that the impact of REACH on our own raw materials purchases will not influence the range of products, quality or current standards of chemical safety of our papers provided to you.
